SUMMARY

Highly motivated and adaptable Fullstack Developer with a strong foundation in C#/.NET and modern web technologies (React, HTML5, CSS3, JavaScript). Passionate about designing and building user-friendly, high-performance front-end applications that enhance user experiences. I thrive in agile, collaborative team environments and am committed to writing clean code and developing responsive web interfaces that make a tangible impact.

WORK EXPERIENCE

Freelance Developer, Trivseldata AB, Eskilstuna Aug - Nov 2025

- Designed and developed scalable services using C# and .NET, with a focus on clean architecture and maintainability.
- Developed features for web applications, including uploading high-resolution images and generating customized puzzles, involving UI/UX considerations for interactive user experiences.
- Collaborated with cross-functional teams to ensure scalability and maintainability of the application.

Software Developer, LIA Intern, CGI, Eskilstuna Jan 2025 – Jun 2025

- Developed and maintained frontend using React, backend applications using C# and .NET, leveraging .NET Aspire for cloud-native development and microservices architecture.
- Containerized applications with Docker to streamline deployment, scalability, and environment consistency.
- Designed and implemented RESTful APIs to enhance system integration, performance, and scalability.
- Practiced GitOps and CI/CD using GitHub Actions.
- Participated in code reviews, technical direction, and documentation.

Software Developer, LIA Intern, Trivseldata AB, Eskilstuna Aug 2024 - Oct 2024

- Developed a booking system using C# and .NET, strengthening technical skills and understanding of user needs.
- Collaborated with team members to create technical guidelines and solutions.
- Conducted bug fixes and implemented product improvements to ensure long-term quality.

EDUCATION

Aug 2023 - Jun 2025	Software Engineering in .NET, Campus Nyköping (Graduated) <i>Relevant courses: Advanced .NET Programming, Database Management with SQL, Architecture of Application, Clean Code and Testable Architecture</i>
2021	Object-oriented Programming in Java Luleå Tekniska University (G)
2020	Programming in Java Högskola i Gävle (G)
Aug 2016 - May 2019	Analytical Finance Mälardalens University, Västerås (Graduated)

SKILLS

Front-End Development	JavaScript, React, HTML5, CSS3, TypeScript, Angular (actively learning/familiar with concepts), UI/UX Design Principles, Responsive Web Design
Back-End Development	C#, .NET, Node.js (Merit/Basic Experience), RESTful APIs
Databases	SQL Server, MongoDB, PostgreSQL (Merit/Basic Experience)
Version Control & DevOps	Git, GitHub, Docker, CI/CD (GitHub Actions), Agile (Scrum)
Tools	Jira, Docker, Kubernetes, Microsoft DevOps, Powershell
Cloud Platforms	Basic experience with cloud platforms (Azure, AWS; eager to deepen GCP skills)

HOBBY AND INTEREST

Cybersecurity	Enjoy spending time studying and participating in security challenges on platforms like TryHackMe.com and JuiceShop
Fitness and Mindfulness	Active member in Eskilstuna Boxing Club, Eskilstuna Pilates Center and practicing daily yoga and meditation.

PERSONAL ATTRIBUTES

I am a highly collaborative and adaptable individual who thrives in agile, cross-functional teams. My curiosity and passion for learning drive me to stay updated with the latest technologies, including cloud computing, secure coding, and DevOps practices. I am committed to delivering high-quality, scalable solutions that meet both technical and business needs. With a strong sense of accountability and a proactive mindset, I am eager to contribute to innovative projects that make a real impact.
